

Active Account Holders 2013-2019

Active accounts are herein defined as instructed by 590 IAC 6-1-4 (k)(16): patrons who have utilized a member library within the past three years. This statistic is expected to have a low or negative growth curve as cardholders do not require multiple accounts to access the resources of the Evergreen Indiana consortium and duplicate accounts resulting from migrations are deleted or merged into a single account. Compiled from raw data from each year's annual report.

Year	Count of active accounts	% Change from previous year
2013	575,984	N/A
2014	570,087	-1.03%
2015*	508,299	-12.16%
2016	491,192	-3.48%
2017	504,286	2.60%
2018	503,580	-0.14%
2019	486,058	-3.60%

*2015 reflects a major cleanup of migration artifact accounts.
