### NEW LEU DROPBOX

A new DropBox folder has been created specifically for Evergreen Indiana hosted webinars. An email will be sent with a link to the recipients to download the certificates. They will remain in the folder for five years (or until we run out of space). You may wish to bookmark the link for future access!

### LOCALADMIN & CAT1 REFRESHERS

Emails were recently sent out to the Support, Update, and Catalog listservs about the upcoming annual refreshers for LocalAdmin and Cat1 permission group holders. These notices are available to view on the [Evergreen Indiana Blog](#).

Another Introduction to LibraryIQ has been scheduled for November 6 at 11am (ET). No registration is necessary.. Just [click this link to join](#). The link is also available in the EI calendar.

### HATCH BROWSER EXTENSION

We have been made aware that Google Chrome will not support the current iteration of the Hatch browser extension in or after June 2025. The Evergreen community is working towards a fix. You will be notified if anything needs to be done on your end. If you would like to follow the progress, [click here to view the LaunchPad ticket](#).

### NON-EI LIBRARY SURVEY

As we wrap up the staff surveys, Carson Block, the facilitator for the consortium's strategic plan, will be releasing a survey to non-Evergreen Indiana libraries next week. Please encourage your non-Evergreen colleagues to fill it out!

If you have any extra transit bags, please send them to the state library so they may be redistributed to libraries in need of them!
